FOR THE  
SAFE GUY

#### Wanna help fight HIV & STIs?

- ? Are you a gay/bi guy?
- ? We want to help you get safer sex info to your peers.
- ? For more details and to RSVP contact: [charles@parn.ca](mailto:charles@parn.ca) or [owen@parn.ca](mailto:owen@parn.ca) or call us at 749.9110 toll-free 800.361.2895

- Are you the kind of guy who is comfortable talking about sex (no, not just **during** sex, silly boy!)?
- Want to share accurate and current information about sexually transmitted infections, HIV/AIDS, and safer sex with your friends?
- Want to see the gay, bisexual, and men who have sex with men in your community have the information and resources they need for their health?
- What's a peer educator? They're someone who is interested in helping to support gay men's health by making sexual health information available to everyone.
- **And don't panic! We're not asking you to commit to a long-term relationship with us!**
- You can be a sexual health educator simply by talking to your friends and the guys you know. If the topic of sex comes up you will have detailed and accurate information to share.
- Gay and bisexual men live in a social environment full of conflicting information. It is a world that's slowly opening up to equality and diversity and yet there is still a lot of stigma and shame for gay and bisexual men. When we talk about gay men's health it is important to understand that it's more than exercise, eating well, safer sex, and having a regular check ups.
